JUST ARRIVER .- Doe of the new locomotives for the Kabinial railroad has strived and is now run-ning. The railroad is progressing rapidly and this lorsonicities is being used to do the naming of materials on the new road. The new engine gives to satisfaction and its presence will greatly facilitate the spendy completion of the road.

LEFT IN THE STRAMER -On the 8th last, the Hose J. Most Smith and family left on board the P. M. S. S. City of Sydney, for San Francisco, to make a stay of about six months in the East. Also His Ex.J. M. Comits, United States Minister, Hon. E. P. Adams, T. H. Davies and wife, J. C. Glade and wife, Col.J. G. Fair and son. We wish them how voyage and a safe return to their Island home. The steamer and some forty-four passengers and other a large freight from this port.

The P. M. S. S. City of Sydney left or Threader morning at 5 o'Slock for San Francisco, allier remaining here some twelve noars. She book from Homolule a large sumber of passengers as will be seen by the published list. Notwinstanding the early hour at which the steamer left, the bond with its indefatignable leader was on the wharf to cheer the passengers with asset music and lead a charm to the stone, for which the members of the band deserve great praise.

ALL ALIVE - Monday last was a live day is fionolnia, everybody rauning hither and thirle frontial, etcrybody rausing lather and thitler preserve for the Australian stramer. The business community were unusually active in their effects to be reads with their correspondence and the efficers and clerks in the banking house of Mosars. Bishop & Co. were kept very busy the whole day. Honolaile can be lively when her people are put to their trumps, as they were on Mondry last. There appeared to be as much activity on the wharf as in the city, and the scene of busile and business was really cheering to the beholder.

We call the attention of our readers to the afvertisement in to-day's issue of the California oen studying and rehearing for this engagement beet studying and rehearsing for this engagement. They will protectly make their first appearance in a charming dittle play from the French entitled "Un duel et Amour," in which they will wear elegant costomes of the Sexteenth Century, and a face to conclude the personnance. They will bring with them a copyr of the latest sensation, H. M. S. Pinalore, and will produce it if ther can induce some of our local musical talent to assist them.

A GIMNASIUM -We learn that Mr. Lupcoil inmission for instructions in athletic exercises. This will be a decided improvement and be at the same form divine and the production of brailin. Gym-nastic exercises do not only develope the muscular statem and promote health, but gives the poetry of greeful motion to all the movements of the body which lends a charm to motion, not to be acquired by any other physical education. Mr Laproll with ample support to compensate him for his cuterprise and wall in the art.

The giorious Fourth of July was enthusiasthenty eciclerated in Honoluic. All the public offices, and places of business were closed during the day. The Government Bouldings, Engine Houses, Porcing Consulates, shipping in the harbor and a number of private residences, displayed an abundance of busing. At 12 m a Royal sature of soundance of buring. At 12 m s Royal sainte of 21 gues was fired from Funcibus; butters, and the citizens of all instituatives seemed to give themselves up to a day of bilarity and merry-making. Quite a number of private pie nice were held outside the limits of the city, which were well attended, and where the best of order was observed. At the residence of Capt. Bobron to Numanu valley, we noticed a delignitud Sanday School pie-nic, given for the benefit of the californ. The day passed off without the slightest occurrence to mar the piensors of the occasion, and we are pleased to learn that there was less drunkenness and rowdram than on former like occasions. This is credition. is in than on former like occasions. This is creditable to our people. After all, we believe that the manner in which the day was observed as above described, is preferable to any extraogent and noise exhibition, especially in a community where noisy expitation, especially in a community where the American element is limited to a moiety of the population. Thus has passed the 1632 Americany

of the Declaration of the Independence of the Uni-ted States, an event which holds a conspicuous pace hot only in American, but in the world's history. And thus may Americans everywhere, on platory. And thus may Americans evenue as occasion, re-echo the refrais-

"The flar Spangled Sammer, Ch. hing may it wars! O'er the land of the free and the home of the brave." THE MEASURE -Is common with our citizens we had hoped that this discuse could have been kept within a narrow circle. In this hope we have been disappointed if rumor speaks truly. The disease is disappointed if musor speaks truly. The disease is represented as spreading among the native families, just the thing which was most dreaded, inasmuch as with them, the measures are dreaded and fatal disease, because through ignorance and a fatal tendency to run counter to all medical advice, the disease becomes a scourze which is perfectly control one becomes a scourze which is perfectly control. case becomes a scource which is perfectly control-atile with the foreigner. The officers of the Board of Health have endeavored to check the Sound and Same and Section 1 Man Many Sounds and Spread of Health have endeavored to check the spread of the messles by very effort in their power, and to prove this fact we may mention that the Board has had peinted, in the native language, astructions how to treat the disease, which have been distributed to every household in the kingdom. If these instructions are observed by the native families into which the measles may come, there is every prospect that the disease can be checked and its latal consequences are tied. But it there instructions should be disregarded, as it is feared they will, then the consequences cannot be foreseca. The mative doctors know absolutely anothing about how to treat such a disease as mea-ales, and the tendency of the native to plunge into code water while sufficing from scare inflammation is sure death in ninety one cases to a bundred, and still they will do so. We repeat the hope that the experiences of former years may teach the patives

New York, June #-A cable disputch to the Her-New York, June 25 - A cable dispatch to the Hersed from London says: The ex-Empress Eugenie, in
her lane home at Chiselburst, is the object of the
deepest sympathy from all classes of the Euglish
population. The Empress, as she is usually styled
in Euglish, was terrely affected when the news of
her son's death was communicated to her on Friday
morning (June 2015). She swowed away, and for
a long time remained in an insensible condition. At
intercals conscioueness returned to her, and at these
moments she would for a few minutes be calm; then
as the realization of her hereatyment returned to her. as the realization of her bereavement returned to her, she would cry out aloud, and again relapse int conscioners. Toward evening, however, her grief appeared to have exhausted itself to some extent, and she became much more composed. During the night, however, she continued agitated, simplers and depressed. Upon the arrival of the Duchess of Mouthy, who had hastened to Chiselburst from Paris this morning, the Empress received her with greaffection and was much consoled by her sympathy. The Princess of Wales was at Chiselburst as the representative of the Queen in tender her sympathies to the ex-Empress. It is announced from Berlin that the German Court will go into mourning for a short time. The English C. into mourning for a short time. The English Court will go into mourning for the Prince until July 25. From Paris it is announced that the Bonaparists will wear the same mourning as for the late Emperor Napoleon III. The English papers have all editorials and long sketches about the deal Prince. They recall the scene at Southempton, on February 27 h. last, when the Empress accompanied her son on board the Dunnie to bid the Prince farewell. The news of the death of the Prince caused a profound sensation in Berlin. Some of the papers recall inc dents that look place at the beginning of the war with France, when "Luin" was permitted by the Empeor to undergo his famous "haptism of fire" at Saar-bracken, and of the Empress" ardor to pressing on the war, but all loss to work that

Representative Whitehorne has forwarded a communication to Goode, Chairman of the House Com-mittee on Education and Labor, touching the pro-priety of the proposed investigation into the cause of the recent colored exodus from the Southern of the recent colored exodus from the Southern States. After a general review of the relations which existed between the slaveholders and the slaves, at allusion to the general good feeling existing between the whites and the blacks at the close of the war, and a statement concerning the immense less indicted upon the South by the late civil strile. Whitehorne says: "In view of the representation made from time to time that the colored man in the South is denied his legal and political rights; that he is deprived of a just and proper reward for his labur, and that his life and liberty are constantly endangered, it is important and instructive to test the truth of these representations outside of partisan statements. In comparing the productions of the South since the war, it is shown that from 1869 to statements. In comparing the productions of the South since the war, it is shown that from 1869 to South since the war, it is shown that from 1869 to 1875, there has been an increase of more than 3,000, 000 head of cattle and awise. In the sight years proceeding 1861 there were produced 27,142,285 bales of cotton, while for the last eight years there were produced 33,226,531 bales. In 1871 there were 7,357,549 sores of cotton cuitivated, while in 1878 there were more than 12,000,000 acres cultivated." It is estimated by Whitehorne that more than \$200,000,000 of Southern labor products enter into the purchase of merchandse and manufactured goods of New England, New York, New Jarsey and Pennsyl. As a domestic and political problem and viewed in its economic results, it is better for both races of the South that the colored race could migrate, provided this migration can be made with careful thought and productial consideration. No one then can or will then persuade them to any other course. If you shall recommend an investigation, as I hope you will, I trust it will be in the high spirit of a search after political economic truth, in the interests of humanity,

and the common good of our country. Chicago, Jone 22 -One of the armed companies, which under the recent Act of the Legislature must some pears to exist, became involved in a difficulty some cease to exist, became involved in a difficulty with some unarmed people this afternoon, which resulted in the death of reveral of the latter. The Bohemian Sharpahooters' Association, composed of some twenty individuals, had a picnic to-day at Silver Lasi Grove, on the corner of Ogden and Western arennes. During a dance one of the Sharpahooters engaged in a quarrel with Visintine E Clark, a cisitor, and after using him up pretty badly had him ejected from the ground. He stated his grievances to a crowd outside the gate, and gaining some sympathy there, inaugurated an indiscriminate throwing of sticks and stones into the inclosure where the pirnic was being held. The lieutenant of the Company, Frank Ladweic, ordered the long roll sounded and the bavenets fixed. A charge was immediately made toward the gate, and the crowd were bayonesed and sahered until they fell back. The Company re-formed outside the gate in single line facing the street, and leading their guns fired a volley into the ctowd. They immediately releaded and again fred, each sharpshooter picking his was. It is stated that three or four volleys were fired in all. The weapons three or lour volteys were first in all. The weapons used were murnis-boading Springfield muskets, the eartridges being composed of nine buckshot each. About a duran persons were wounded, and one is said to have since died. As soon as the affair became known two squads of police repaired to the scene and arrested the whole company. They formed in marching order under the American flag and proceeded to the West Madison street Station, where they are now incurcerated, charged with murder, and guarded by a heavy detachment of porice. The Lehr and Webr Verein which had been holding a picule to-day ontside the city, made no effort on their return to release the prisoners. It seems that a picule was given by the Hobsenian Sundayschool, and that a numerous gang of drunken roughs had all along given considerable trouble, until finally those in charge of matters sent for the Sharpshooters as protection. They arrived about 1 o'clock, and soon after that time the trouble began as above stated. The Lieutenant to-night denies that he gave orders to fire, but says that after he had cleared the grounds by a bayoust charge there was a rain of atoms and brick, and that his men becan a feet of the second states and thick, and that his men becan a feet. of stones and bricks, and that his men began a de-sultery fire without orders. Members of the com-phoy all refuse to talk. Seventeen members are retained, the others having been released. arrival of the police to conduct them to the station probably saved them from personal violence, which was threatened by a surrounding and excited mub of about 2,000. The following is believed to be a complete list of the casualties: Valentine E. Clark severely wounded by blows on the head; D. H.

East Maui Female Seminary.

Makawao, July 2d, 1879. DEAR SIR.-The anniversary of the East Maui Female Seminary occurred June 27th. There was quite a full attendance of natives and foreigners. The exercises and examinations were unexception-ally good, and were much enjoyed by the audience and often applauded. Great diligence and proficiency were manifest on the part of the pupils, and most thorough and honest work on the part of the teachers the war, but all join in regret that the young Prince should have come to such a psemature death, and offer their sympathy to the bereaved mother at Chissurd far below what can be well accommodated and oight to attend this excellent institution. The friends of the Seminary feel deeply that a new inter-est ought to be awakened in the native population for the education of their daughters. This question has a most important bearing on the future of this people. With such an institution, such excellent accommodations to well provided with able and efficient teachers, and the price of tuition so low, and the promise of aid to those who need it, it seems a pity that the attendance should be so small. It ought to be doubled at once. In no way could better work be done for God or man, than to fill up this seminary for Hawaiian giris. It is most earnessly hoped that those who hold the property and are accumulating the wealth in this land, will not only give their influence but their personal efforts and pecuniary aid is bringing in and supporting native

girls in this excellent school. The next school year commences on the 22d of July and under excellent auspices. Miss Carpenter has returned from a six months absence in New England, with health and strength recruited in good degree and will resume her place at the head of the institution. She will be assisted by Mrs Perry of Holden, Mass., a graduate of Mr. Holy-ke Seminary, who returned with her from the States, and by Miss Kent, whose work in the institution for the nast year has fully approved her to the trustees. Mrs. Smith, after two years of efficient and faithful labor, returns to California for rest. T. H. R.
